Sparx Systems Enterprise Architect 7.5.844 Download

A: If you are using EA 7.5 then you are using Sparx and therefore don't need any keys. You can access the Configuration Manager by going to Help > About Sparx Systems Enterprise Architect. This will show you the version of EA that you are running as well as the latest update. Click the 'View' link to see the available updates. You should update to the latest version (which you already have) and then click the 'OK' button. In EA, go to Preferences and then click the 'Behavior' tab. You can change the font size there. Q: How to bind Kendo Drag and Drop I have a Kendo Grid and a Kendo droppable. The user can drag a row from the Grid to the droppable. When they drop the row into the droppable I get an error Uncaught Error: not an item at Object.b.kendoDrop (js/kendo.js:168) at Object.b.kendoDrop (js/kendo.js:168) at Object.b.x.x.y.onDrop (js/kendo.js:196) A few sources have the solution to this problem is to bind the Kendo grid's data source to the target's drag and drop as such $("#grid").kendoGrid({ dataSource: dataSource, draggable: true, sortable: true, columns: [{field: "Id", width: "150px"}, {field: "Name", title: "Name"},], filterable: false }); $("#drop").k
