EcoTow Technologies Inc. has developed a battery-powered remote-controlled, self-guided, battery-powered line of pet waste removal machines. It is their first venture into the area of pet waste removal as opposed to regular pet waste scooping. The Pet Rat Litter Box is the first of the machines, as the name would indicate, was designed and built with cats in mind. When installed on a fence, or other appropriate surface, the system moves any waste from the area above the machine into a neat, contained box. This allows the owner to clean the box free of litter, or even leave the litter box empty when it gets too smelly. Once full, the box can then be collected and the waste disposed of. The Pet Rat Litter Box is battery powered, operating on four "AAA" batteries. It is light enough that even the smallest dog or cat can operate the device without any difficulty. A simple push of the switch turns the machine on and off. EcoTow Technologies Inc. is marketing this product as a simple, easy, practical and very affordable way to clean up the pet waste on your property. The pet waste removal machine can be operated from the top or side. The EcoTow website has a video demonstrating the operation. EcoTow says that the Pet Rat Litter Box is just a start, and they plan to soon introduce a pet waste collection and disposal system, as well as a chemical dog and cat odor remover for use in areas such as kennels and
