How to - Troubleshoot Ubisoft Game Launcher: Error Code 2. * Open the DISM tool * Open the package. * Select Package > Uninstall. * It's working now? Just try to avoid AC2 DLCs on AC1.1 so you can get AC2 FAST if you are concerned. But, Ubisoft's Launcher Integration can be found in your ACTIVISION Account i believe. Here's a link of a youtube video on it. I did it manually on my Windows PC. But for the Mac, keep in mind, it's somewhat tricky to do without using a program. I recommend the use of a program called 'Launchy'. Launchy will literally save your life and keep you organized. While it's not a fix to this issue, I recommend that you try to use the PQ Launcher. Both of them were suggested here on the Ubisoft forums. Here's a quick vid to explain the PQ Launcher Here's a quick vid to explain the PQ Launcher - So as you can see, here's the PQ Launcher. - And here's the PQ launcher account settings And here's the PQ launcher account settings - Here's the PQ Launcher account settings - Now you could 'Create your own launcher account' and copy the account settings. - But for now, I'm gonna link the AC2 account settings. - If you want to copy, uncheck 'Application Service' - Don't uncheck the 'Application Service'. - The service have to be unchecked. - Ok, close that. - Close the PQ Launcher - And now, launch the PQ Launcher. - And here's my account settings. - And here's my account settings. - Copy it! - Now, copy it! - I'm copying the account settings...! - Ok, copy it - Click ok! - And here's my account settings - And here's my account settings - And here's the PQ Launcher account settings - Ok. - Ok. - Ok. - Now, we're gonna add our AC2 DLC on launchy. - Click here - And here are
