What's New In AutoCAD?

Drawing Components: Keep your drawing organized using drawing components. You can even reference a component in another drawing from within the same drawing. Printing: Print multiple copies of a drawing, even large drawings. And now you can set the font, paper type and scaling of the printed drawings. 2D Layouts: Easily create 2D drawings with grids and annotation. Electronically signed drawings: Now you can sign your drawings electronically using Adobe PDF forms. User Interface: Save your time with new preferences and shortcuts. You can customize the context menus with your own commands. You can now customize the interface and see your customizations in-place while editing drawings. Cloud-connected drawings: Work with drawings stored in cloud-based storage such as Dropbox, OneDrive and Google Drive. You can even open drawings directly from cloud storage. Graphical calculator: Easily calculate figures and perform math operations within the drawing. Measure tools: Measure distances, widths, heights, angles and more in a single click. The new features are included in AutoCAD 2023 and can be accessed by the new button "New in AutoCAD" at the bottom left of the ribbon. Check out the AutoCAD New in AutoCAD video for more details. Stay tuned for the next new feature announcement and release of AutoCAD 2023 in early October 2019. See the highlights of the new features in AutoCAD 2023 in the new 30 minute AutoCAD feature video. (Paid video, 1:30 min.) AutoCAD Elements 2023 AutoCAD Elements 2023 is available now as a free update for current users. You can use the AutoCAD Elements 2020 installer to install the latest AutoCAD Elements features. Learn more. Design, visualize and share 3D models Use your 2D drawings for 3D visualizations Creating models for 3D visualizations is now much easier and more efficient. You can add multiple views and 3D visualizations directly to a 2D drawing. Your 2D drawing is now a highly powerful data source for creating 3D visualizations. 3D Modeling in 2D Create a 2D layout of your model on a paper drawing and use
