What's New In ZumoDrive?

ZumoDrive uses Java technology to provide a simple and efficient way to transfer data between local folders and external storage, whether it is from a computer, a smartphone or a tablet. System requirements: Windows XP/Vista/7 64bitThe Oracle Music Center started its preview performances today, so we get an opportunity to see the largest concert hall in the world in operation. And it's a lot to take in. The video above, by Alan Gissen of the Rochester Business Journal, gives us an excellent overview of the biggest building in town. Here's a look at it from the inside: We visited the building this afternoon and have a lot of good stuff for you. Stay tuned.PLINY THE ELDER The English ChurchFather Pliny the Elder (23–79 AD) was born into a distinguished patrician family of Aquileia in what is now Italy. He studied under the Stoic philosopher, Posidonius, before becoming an administrator of imperial finances and a teacher. In AD 64 he was appointed by Nero as prefect of the city of Rome, though he may have been one of the few people who found the challenge of governing a sprawling metropolis like Rome an unattractive option. He was certainly left out of the lists of officials who had the honour of witnessing Nero's suicide. However, Pliny's philosophy is the sole reason he has been remembered so long, and he may have come to be identified as an apologist for the virtuous life. "The whole circle of teaching and research on the writing of history needs to be recreated." This edition of the 'Pliny the Elder' series will be published in three volumes. The first, Pliny the Elder and the Classical Tradition, is available now. All the English-language Pliny texts are collected in a single volume, the second volume, Pliny's Essays, will follow shortly. The third volume, Pliny's Letters, has also been translated for the first time, and is in press. For those interested in the project, and who know Latin, it is possible to follow the development of the series in detail on the PLINY website. The project has a threefold aim. First, we need to recapture the context in which Pliny was writing. The survival of his letters as a textual source is a remarkable feature of this text, which is why it has not previously been included in English translations of the Letters. This means that our ability to appreciate the richness of his reference collection is also greatly enhanced. Secondly, we are placing Pliny into the historical context of his own time, as well as the ancient world. This has been the primary challenge of this project, and is a key feature of the third volume. Pliny is a witness to many of
