eurotrucksimulator2roadtotheblackseaativador aconfigurations

----- SUMMARY----- This is a new version of the ATA's original model - Route to the Black Sea. It has been updated for the Euro Truck Simulator 2. In order to replace the original ATA's model, I searched for a model that meets the requirements of the ETS2 game. I found this ATA truck in the workshop, but it was not available in it's original form. So I searched for a modification of the original ATA truck that would fit into the new ATA's form.
