The Great Book of Nature is a classic book about the natural world. Sukhvinder Singh: Some people, they have not read the The Great Book of Nature because they think it is very difficult to understand. So, today we're going to be showing you. This is the way to understand how to read and understand the natural world and its laws. Sukhvinder Singh: There is no more important book, than The Great Book of Nature. If you can read this book, and you have the ability to understand this book, then you will never again be confused about the natural world, and you will be able to see it in a different light. Sukhvinder Singh: We have the opportunity to go outside every day. We've got the opportunity to go into the forests and all the other habitats of the world, and see what is happening there. Sukhvinder Singh: Some people go into the city and see the buildings, and the concrete, and the electricity and everything. They're not able to see what is really happening. Sukhvinder Singh: What they're not able to see is that everything is connected to nature. We are a part of nature. We have the opportunity to know how to live in harmony with the natural world, and this is what this book is all about. Sukhvinder Singh: So, this is The Great Book of Nature, the first chapter of the book starts off by explaining what the universe is. Sukhvinder Singh: When I use the word universe, what I mean is that everything is connected to everything else. Sukhvinder Singh: If you think of 4bc0debe42
