----- What is a Theme?

----- A theme is a set of wallpapers, in a file of several images, that have a certain uniformity. With a good theme, the way you interact with the computer is more pleasant, because you can find a look for each system you use. With a theme you can set different wallpapers for different programs, so that even if the programs look the same, but have different skins, the background image of the desktop changes. It's also possible to make the wallpaper and background change automatically, with some of the shortcuts. You can also get the theme from third parties, and can be customized to your liking. Where can I find a theme? ----- To find a theme, you must go to the web, and find one or many. To find one, you can search in Google, or in the specialized sites. I want to install a theme! ----- To install a theme, you must download the setup.

This is generally a.zip file. To install a theme, you must extract the files. To install a theme, you must extract the files to the C:\Users\[UserName]\AppData\Roaming\Lionel Messi folder. You can change the path, if you want to, but remember that every time you restart, the directory will be recreated. 77a5ca646e

Lionel Messi Windows 7 Theme Download For PC
